EXPERIENCE

Vice President - Competitive Programming Club

Jan 2023 – Aug 2024

Aravali College of Engineering and Management

- Co-Founded the club for competitive programming in my college, that engages 10% - 20% of B.Tech Students.
- Hosted several events, like hackathons, competitive quizzes, and seminars.
- Worked and coordinated with my team to plan the execution of the events.

Member - Google Developer Student Club

Jan 2023 – May 2024

Aravali College of Engineering and Management

- Part of a team of developers to organize and execute technical workshops, hackathons, and coding competitions, increasing club participation.
- Designed and delivered hands-on sessions on emerging technologies, including web development, benefiting over 150+ students.
- Worked with a team to plan industrial visits for 80+ students.

PROJECTS

Depression Detection | *Python, Nextjs, Flask, MongoDB*

April 2025 - May 2025

- Built a full-stack application to detect depression from voice samples using ML models.
- Frontend built with Next.js and Tailwind CSS; Flask API served the ML model, MongoDB used for data storage.
- Focused on accessibility, anonymous use, and privacy-first architecture.
- Ensured scalability and smooth user experience.

Xbit | *Next.js, MongoDB, NextAuth, GSAP, Tailwind CSS, Mongoose, Redis*

Aug 2025 – Oct 2025

- Developed a full-stack event hosting platform where users could browse and purchase tickets for various events.
- Integrated secure authentication using NextAuth with MongoDB adapter.
- Cache complex database queries using redis
- Custom-build content delivery network, for files and images.
- Built a modern, responsive UI with Next.js and Tailwind CSS; handled backend operations using Mongoose.

Sankalp | *Next.js, MongoDB, NextAuth, Express.js*

Feb 2025 – May 2025

- A project for Aravali College of Engineering to manage all student club activities on a centralized platform.
- Implemented club creation, member management, event hosting, attendance tracking, and auto-generated verifiable certificates using `html-to-image`.
- Built modern, responsive UI with Tailwind CSS.
- Developed a secure Express.js-based image upload server.

Billing System | *Python, FPDF, SQL, Xampp*

Jan 2025 - Feb 2025

- Developed a comprehensive billing system for a small business.
- Implemented invoice generation, payment tracking, customer management.
- Ensured scalability and smooth and easy user experience.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate, Credential ID: 103022346OCI25AICFA

Participant – HackSplash, Hackathon organized by Echelon Institute of Technology

Participant – Hackaccino 3.0, Hackathon at Bennett University

TECHNICAL SKILLS

Languages: Python, C/C++, SQL, JavaScript, HTML/CSS, Java

Frameworks: Next.js, React, Node.js, Express.js, Tailwind CSS, Flask, WordPress, NextAuth

Machine learning: Pandas, NumPy, Matplotlib, Scikit-Learn, Seaborn

Developer Tools: Git/Github, VS Code, Visual Studio, MongoDB, PyCharm, Sublime, Linux

EDUCATION

Aravali College of Engineering and Management

Bachelor of Technology in Computer Science & Engineering

Faridabad, HR

Oct. 2022 – May 2026
